SUMMARY

Frontend Developer with hands-on experience in building scalable, production-grade web applications using React.js and Next.js. Currently working at Viithiisys Technologies, contributing to real-world client projects across Canada and India. Skilled in REST API integration, responsive UI development, and agile workflows. Passionate about writing clean, efficient code and delivering seamless user experiences.

WORK EXPERIENCE

Frontend Developer

Viithiisys Technologies

2025 - Present Mohali

- Built and maintained production-grade frontend applications using React.js and Next.js in an agile team environment.
- Integrated REST APIs for user authentication, real-time data sync, role-based access control, and CRUD operations.
- Delivered responsive, cross-browser compatible UI contributed to sprint planning, code reviews, and on-time feature delivery.

PROJECTS

Royal York CRM (React.js)

Built multi-role CRM dashboard for Royal York Property Management.

Implemented real-time messaging (Chats, Calls, Dialpad) and activity tracking.

Integrated AI that Auto-Generates estimated time and cost based on user-filled work order form fields.

Dr. B. Lal Clinical Laboratory (Next.js)

Built patient-facing website with test booking, home collection and health score features.

Developed admin dashboard managing 371+ blogs, banners, FAQs and careers section.

Used Next.js SSR for SEO-optimized rendering of patient-facing pages.

Innerbhakti (React.js)

Integrated APIs for handling payment status (Paid/Unpaid) and subscription details in real time.

Implemented user management features (view, search, edit, delete, subscription tracking, and CSV export).

Zeko (React + Next.js)

Developed a Hotel Management Dashboard with analytics to manage hotel operations, orders, and departments.

- Developed a hotel management system covering bookings, orders, staff, and guest services
